

A Call To Arms Part I

By Shaka Barak

Dedicated To Del Jones

Punk Black males hiding behind Religion, Spirituality, Hebrewism, Capitalism, Socialism, Communism, Pan Afrikanism, Nationalism, Integration, Miscegenation, Maat, Kemetism, Revolutionism, Islam, Hinduism, Buddhism, Jehovahism, Civil Rights, Reparations, Repatriation while our children die. 100,000 murders of our children by our youth and others everyday and not one Black man has died trying to defend one Black Child's life except for firemen and policemen and most of the time they don't know that the child in the burning building is Black.

Punk Black males have figured out how the white man was raised off his all fours and taught to look up towards the sky by the African race, who are the original men and women. Punk Black men can tell the world that it was the African who built the first civilizations and gave art, science, math and literature to the world. Punk Black males can tell of the Genius of our race in peace and in war under our great leaders of the past. But these same Punk Black males can't muster the strength to meet the manhood level of his counterparts today unless he is in the service of other races, as their dogs, that are told when to bark and bite and who to bark at and who to bite.

Punk Black males say they will kill somebody about messing with their child or children but the funny thing is they haven't killed anybody but their child and children are not only messed with, but dead and dying if not physically then from the drugs and alcohol they consume.

These cowards include our elders who are manning the ship of the destiny of the African race and are not living up to the standards of manhood produced by the leading and dominant races and nations on this planet. Bill Withers' window raising granny and grandpas have abandoned their posts and Jr. has run off with the shotgun they used to have at that window.

Males who are not organized, not willing and therefore not able to defend our race parade themselves across the tabloids, TV screens and you hear their female voices on radio stations, sometime in groups of five, ten, fifteen, twenty at a time, with no clue of what to do and afraid to do it if they knew it.

They can say 'It's glorious to die for a cause' only in a Last Poets poem. Every race comes into the Black Punk males so-called community, that has the fastest growing number of homosexuals that are about to outnumber heterosexual males, and pimp slaps the Punks and then walks way with the community's money in a Black bag that they take to their own community.

Black Punk men don't even know how to fight except prize fighters and martial artists but most can't fight, can't box, can't use a knife, can't shoot a weapon and this has bred a race of youth who resort to guns, cause they can't fight, cause their Punk daddies that are around can't fight, box, use a knife or a gun.

Punk Black males joined marches that call for putting down the guns when the whites who surround them and protect their marches all carry guns and wear vests and are ready to use their guns on the marchers if they got the chance.

The other races make guns faster than you could ever collect and destroy them, in these phony gun collection drives that pay a gang banger \$100 for an old gun, so he can then buy three more guns with that same \$100.

Pretty soon, in about 20 years, the Punk Black males and so-called leaders will be dead and out of the way. The youth don't respect these leaders that push them into so-called educational systems where not only are they not safe, but where most fail and drop out after they get their training to end up in jail.

The Punk Black males have shown our youth over and over how they are high paid speakers and brokers of our pain, who position themselves to be male whores in the name of civil rights or some revolutionary crap. Punk Black males are afraid of our youth so much that they don't even drive in the hood at night and piss on themselves if five youth approach them from the front not just walk up from behind them.

In Call To Arms Part II I will give solutions to the killing of our youth.
