

Gladiator Report

(sports and entertainment)

[In this section we dissect Amerikkkan Culture]

They are the heroes of our children, we idealize ‘em for their fame, their fortunes and the illusions that they are success stories to be emulated by a race of wandering souls in search of sanity in this pre-fabricated nightmare. We are all drenched in some degree of genocidal self hatred that is floating us all toward annihilation.

Nothing in Amerikkka is real, but the suffering of our people in dusty places, urban vestibules and sunless corridors splashed with our fresh blood. No matter what the venue, we are shifted from drama to drama documented on their mass media news organs dripping with anti-Afrikan propaganda.

Stolen identities searching for a way out, we swim in dank despair but towards what? Success is a bastard of retardation keeping us from reaching what we were or could be. Idols of treason are pushed as wholesome role models even though they are laced with race betrayal. This results in the glorification of filthy pimps, genocidal drug lords, lying sell-out politicians and all kinds of public prostitutes all packaged in Hollywood. Televised Black men in dey Momma's dresses with pillows shoved up their asses make public fun of the original woman, the Afrikan Goddess. No shame, dey got no shame!

Ain't this a drag!

We must constantly look at the anti-Afrikan propaganda to expose the Gladiators as we prepare to build the infrastructure for 21st century for our youth to stand on liberated and proud.
